

MID-CENTURY MODERN

LOVING THE LOOK AND LIFESTYLE!

BY EILEEN GORDON

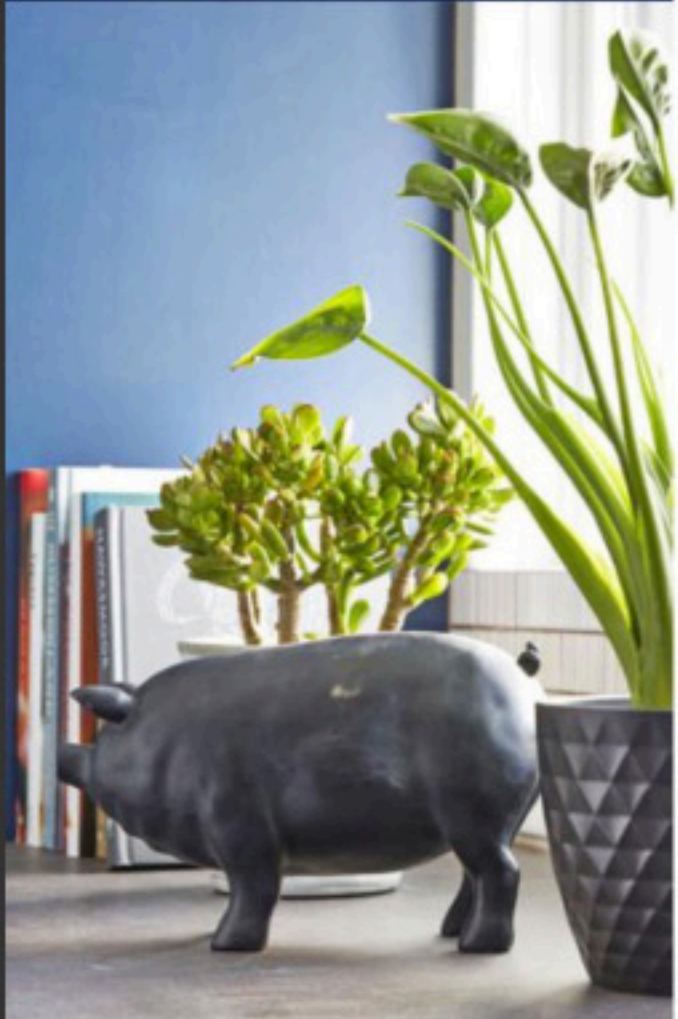

Beyond the architecture, the mid-century style furnishings and every accessory were all painstakingly collected over time, including the delightful rhinoceros painting by Atlanta artist O.M. Norling.

Kevin and Valerie love to entertain. Following a year-long renovation, the Gillespies are finally settled in. For Kevin this new kitchen is a joy to cook in. "Now that our home is finished, I am delighted to invite my chefs to do new recipe tastings here in my kitchen rather than at one of my restaurants."

When a chef designs his own personal dream kitchen, the bar is raised! Kevin's impeccable standards are reflected in this magnificent space that offers multiple work surfaces and superb function.
